Subject: Draft Trefonen And District VDS 2016

Dear Steering Committee

I am in favour of retaining all sections of the draft VDS, which you have so thoroughly researched. I truly value having such information all together in one place instead of searching through the numerous documents I have collected in the 37 years I have lived in Trefonen whenever I am asked to write a piece for a local publication. I am also grateful to Dr George Nash for his independent contributions to our knowledge of our heritage and wish to see his expert comments placed on record. I appreciate all opportunities of viewing the night sky in natural darkness without unnecessary lighting and am pleased to see this noted in the VDS.

Ruth Dawes
